

FOR EVERYONE EVERYWHERE, EVERY PLACE, EVERY HOME

Urinal-Fresh Deoderant Blocks

SKU: 730 DOM*

Urinal-Fresh Deodorant Blocks are air-activated and slowly evaporate when in contact with air. They do not dissolve in water or urine, but only sublime into the air creating a refreshing odour that masks the urine smell with a gradual reduction in size.

Urinal-Fresh Deodorant Blocks are perfumed blocks which are used in toilets and urinals to suppress malodours and freshen the air. These blocks are more than 99% active pDichlorobenzene having a short half-life in the atmosphere and are considered readily biodegradable.

- ✓ HIGHLY CONCENTRATED FORMULA
- ✓ SLOW VOLATILISING BLOCKS REDUCE UNPLEASANT ODOURS IN TOILETS & URINALS
- ✓ LONG LASTING LAVENDER FRAGRANCE
- ✓ SUITABLE FOR DOMESTIC USE
- ✓ LEAVES WATER CONTAMINATION FREE
